

Mike Wiegele Helicopter Skiing

Sportshop Ski Description

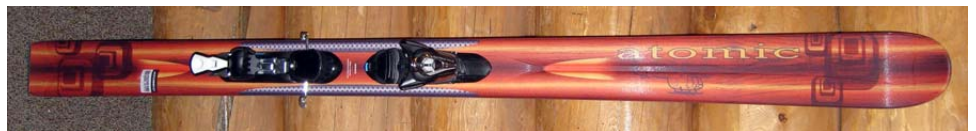

Atomic Thug Heli

Designed here, at MWHS, specifically for those bottomless champagne powder days. The Ultimate Fatty. Dimension: 139.5-120-132.5 Sizes: 171-182

Atomic Big Heli

Our best all round powder ski, designed here at MWHS and built exclusively for us by Atomic. Great stability and flotation, but still light and quick for skiing the steep lines in the trees. Dimensions 135cm-107-121. 33 Meter turn radius

Atomic Nomad Crimson

The Nomad Crimson is one of Atomic's most popular all round skis, and is a great choice for those who like to ski fast and are willing to give up some flotation for more face-shots! Also the ski of choice for spring corn snow conditions. Dimensions: 129-86-19. Sizes: 155-162-169-176-183

Atomic Heli Daddy

The Atomic Heli Daddy is a softer version of the Big Heli. Dimensions: 121-99-112. Sizes 150-160-170-180

Sportshop Board Description

Burton Fish

Easy to ride with new Swallow Tail and S-Rocker to enhance floatation, speed, and agility. The Channel gives unlimited stance options with any Burton binding.
Available Sizes: 156,160

Burton Malolo

A true deep-snow surfer with a heart for freestyle, the Malolo™ has uncompromised float and flow precision.
Available Sizes: 149,154,158,162,166

Burton Super Model

The Supermodel™ is the OG all-mountain ATV. The tapered shape adds stability when speeding and float when surfing, while remaining mellow edge-to-edge for laid-back cruising.
Available Sizes: 152,155,159,163,168,172

Lib Tech Mullet

Patterned after mid-eighties design, progressive side cut and taper angle combined with magnetraction and banana between your feet ensure a floaty effortless ride in powder and positive edge hold in all conditions.

Available sizes 156,165,

Lib Tech T-Rice

The T rice magnetraction has contest wins in slope style and big air banked slaloms.

Available sizes: 153, btx mtx blunt, 157,btx mtx blunt, 161.5, btx mtx pointy, 164.5,btx mtx pointy

Prior Spearhead

Part retro, part future, the Spearhead is a powder board evolution providing the most versatile freeride performance of the Prior lineup. Big alpine bowls to tight treed sections the Spearhead handles it all...and rips in the hard pack too (both directions).

Available sizes: 161, 166, 172, 178

Prior Khyber

The Khyber has become one of the most sought after shapes in the Prior line... Its wider nose, generous sidecut and increased taper provide improved float and maneuverability in powder conditions - at the same time it reduces the dreaded back leg burn in powder. The Khyber's quick-turning nimbleness makes riding tight trees and critical sections easy.

Available sizes: 150, 156, 160, 165, 170

Prior Pow Stick

The Pow-stick is the undisputed king of big mountain directional powder boards. The exhilaration that comes from being launched out of and into the next powder-turn, turn after turn with increasing speed and stability is unparalleled; the behavior and performance of this rocket ship is the result of years of research and development and can be attributed to the nose shape/profile that allows for effortless floatation and the swallowtail that allows for a more natural stance without the dreaded back leg burn.

Available 176, 181
